

AISWARYA D

Python Full Stack Developer

☎ +91 8838143503 | ✉ aishwaryaaisu8829@gmail.com | 📍 Tirupur, Tamil Nadu, India

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3 years of hands-on experience specializing in Python, Django, Flask, React JS, Redux Toolkit, and Tailwind CSS. Proven ability to architect and deliver scalable RESTful APIs, secure JWT authentication systems, and responsive production-ready web applications. Adept at training and mentoring junior developers with a consistent focus on delivering high-quality, maintainable code.

TECHNICAL SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React JS, Redux Toolkit, Tailwind CSS

Backend: Python, Django, Flask, Django REST Framework

Database: MySQL, PostgreSQL, Django ORM

Language: Python, JavaScript

Tools: Git, GitHub

AI / Workflow: AI-assisted development using modern tools for productivity

Spoken: Tamil (Native), English (Professional)

WORK EXPERIENCE

Full Stack Developer Dec 2024 – Present

AV7 SCM (Lyngasys Technology)

Stack: React JS, Redux Toolkit, Tailwind CSS, Django REST Framework, PostgreSQL, JWT, GitHub

- Designed and built pixel-perfect responsive UIs using React JS, Redux Toolkit, and Tailwind CSS with reusable component architecture.
- Developed robust, scalable RESTful APIs using Django REST Framework, ensuring high performance and production readiness.
- Implemented JWT authentication and role-based access control for secure multi-user enterprise applications.
- Integrated third-party APIs and managed PostgreSQL databases with optimized ORM queries for fast data retrieval.
- Collaborated in agile sprints, performing code reviews and maintaining a clean, documented codebase.

Python Trainer & Web Developer Jun 2023 – Nov 2024

Uniq Technology, Chennai

Stack: HTML, CSS, Python, Django, Flask, Problem Solving, Training & Mentoring

- Trained 50+ students and professionals in Python — covering core concepts, OOP, problem-solving, and real-world project application.
- Guided learners through Django, Flask, and data manipulation with structured hands-on coding exercises and projects.
- Developed internal web applications using Django and Flask, improving operational workflows.
- Mentored junior developers on best practices in code quality, debugging, and software architecture.
- Designed MySQL database schemas and wrote optimized queries for data-driven web applications.
- Delivered 5+ end-to-end freelance projects with full client collaboration from requirements gathering to deployment.

PROJECTS

TimeChat – Visitor Pass Management System

Technologies: *HTML, Tailwind CSS, React JS, Redux Toolkit, Django, Django ORM, PostgreSQL*

Live: <https://timechat.theprocess.in/>

- Platform for organizations to manage and track visitors — scheduling appointments, inviting guests, and generating secure visitor passes.
- Developed responsive frontend with React JS and Redux Toolkit; built RESTful APIs with Django REST Framework.
- Implemented JWT authentication and role-based access control for secure multi-user access.
- Automated confirmations and reminders via Email, WhatsApp messages, and Microsoft Teams notifications.
- Designed PostgreSQL schema for visitors, appointments, pass management, and audit logging.

Gold Bullion Trading & Management Platform

Technologies: *HTML, Tailwind CSS, React JS, Redux Toolkit, Django, Django ORM, PostgreSQL*

Live: <http://www.shivamtraders.online/>

- Comprehensive trading platform for bullion businesses — real-time gold and silver price updates with interactive historical charts and automated rate refresh.
- Developed customer booking, purchase, sales, and stock management modules with full CRUD operations.
- Created automated digital invoice generation system with PDF export functionality.
- Integrated Redux Toolkit for complex state management; built secure APIs with Django REST Framework and JWT.

IHP Application – Bullion Business Operations Platform

Technologies: *HTML, Tailwind CSS, React JS, Redux Toolkit, Django, Django ORM, PostgreSQL*

Built with: AI-assisted development using modern tools for productivity

- Leveraged vibe coding with Claude AI tool to accelerate development and improve overall code quality significantly.
- **Built** complete frontend with React JS, Redux Toolkit, Tailwind CSS; all backend APIs with Django REST Framework.
- **Developed** two-sided marketplace — Job Provider side (post jobs, search resumes, invite candidates) and Job Seeker side (browse jobs, apply, manage profile)
- **Delivered** production-ready, maintainable codebase applying best practices in component architecture, RTK Query state management and API design.

EDUCATION

BE – Electronics & Communication Engineering

Jai Shriram Engineering College, Tirupur

Jul 2015 – Jul 2019 **CGPA: 70.0**

Higher Secondary (HSC) – 12th Standard

St. Mary's Girls Higher Secondary School, Kotagiri

Jun 2013 – Mar 2015 **Score: 70%**

SSLC – 10th Standard

St. Francis Xavier's Girls High School, Pandalur, Nilgiris

Jun 2009 – Mar 2013 **Score: 85%**
